

### What is a Comma Splice?

A comma splice is the improper use of a comma to join two independent clauses. This means you put two complete sentences or ideas together to make one sentence using only a comma between them. While the comma might represent a natural pause in speech, it is not a strong enough punctuation mark to use in writing.

Incorrect	Correct
<i>You are happy and content, things couldn't be going better with Mr. Wonderful to your left.</i>	<i>You are happy and content; things couldn't be going better with Mr. Wonderful to your left.</i>

### What is a Fused Sentence?

A fused sentence is a sentence that joins two independent clauses without the use of any punctuation. This means you put two complete sentences or ideas together to make one sentence without using anything to separate them. The result creates confusion and ambiguity in your writing.

Incorrect	Correct
<i>Slowly, small bubbles of air seem to work their way down your large intestine despite your greatest efforts some of these bubbles eek out.</i>	<i>Slowly, small bubbles of air seem to work their way down your large intestine, and despite your greatest efforts some of these bubbles eek out.</i>

### How to recognize comma splices and fused sentences

When examining your sentences, look for these clues to tell you whether or not you have used a comma splice or fused sentence:

- The main idea/clause is the same as the subject  
Example: ***My phone** vibrated vigorously, it fell off my desk.*
- The main idea/clause is illustrated by another idea or clause  
Example: *The dog ran out of the house, he was two blocks away by the time I put on my shoes.*
- Two or more main ideas/clauses with contrasting ideas are present in the sentence  
Example: *The literature majors are critical thinkers regarding social issues, the math majors lack awareness regarding anything social.*
- Two or more main ideas/clauses with related ideas are present in the sentence  
Example: *I slept through my test, I don't know what I'm going to do.*
